S5 and S7 B.Tech - Monsoon Semester 2022

Exercise-1 Evaluation

Platform: XAMPP web server

Do the following task in conjunction with the question given in Exercise-1:

- 1) Add one more button which will display the count of the total number of students. (0.5)
- 2) Validate the email id such that the email id should be in the format abc@nitc.ac.in. Otherwise, display a message about the wrong email address. (0.5)
- 3) After the email field, add a text field for storing the student's CGPA. The CGPA of each student should be added with the update button at the end of each record. (2)
